

Bias

What is it?

Why did we need to recognise it?

Bias is putting across an unfair or unbalanced opinion.

Sports journalists need to be very careful of bias. As reporters they are expected to write fairly and accurately. They need to be objective - this means they are not biased in any way. They are meant to report the facts, not their opinions!

However, for many writers it is easier said than done...

If you were asked to write fair and balanced account of a football match between Manchester United and Arsenal you would have to describe exactly what happened truthfully.

If you supported Arsenal, you might describe any Manchester United goal as 'lucky', but any Arsenal goal as 'fantastic' or 'skilful'. Doing this would be biased. You would be putting across an unfair or unbalanced opinion.

**This is an account of a football match written by a Manchester United fan.
Manchester United lost 4-0 !**

"Arsenal were so lucky at the match. The superb and skilful Man United players were beaten by the lucky, cheating Arsenal players. The referee was totally biased, he allowed four goals that were all offside. I have never seen so much luck and cheating."

Here the writer is showing bias. Arsenal are always described as lucky or cheating, whereas Man United are always described as superb. He insults the referee and gives no credit to the Arsenal players.
