

Researching your leaflet

1. Firstly identify the subject that you are going to work on. If you can't think of anything, you could use one of these ideas:

- fox hunting
- the fur trade
- animal experiments
- anti litter

2. You also need to focus on finding out specific things. These are:

- a) The main arguments for and against your issue
- b) Facts, figures and real life examples
- c) Quotes/ interviews from experts
- d) Pictures that you can cut out and use in your leaflet

3. You also need to know where to look. Remember to use books, magazines and the internet. What is the number reference that you need to go to? Write it down here.
